

3E Mobile-MSDS

Instant Access to Chemical Inventory and
MSDSs Anytime and Anywhere

ONLINE

Overview

3E Company's database of 4.5 million MSDSs is now available for viewing in the palm of your hand! iPhone®, Blackberry®, Android™, and other device users can access 3E Mobile and their inventory of MSDSs, saving valuable time and bolstering EH&S regulatory compliance by ensuring reliable access to critical product safety data and information.

Critical Data Available in Remote Locations and Rugged Environments

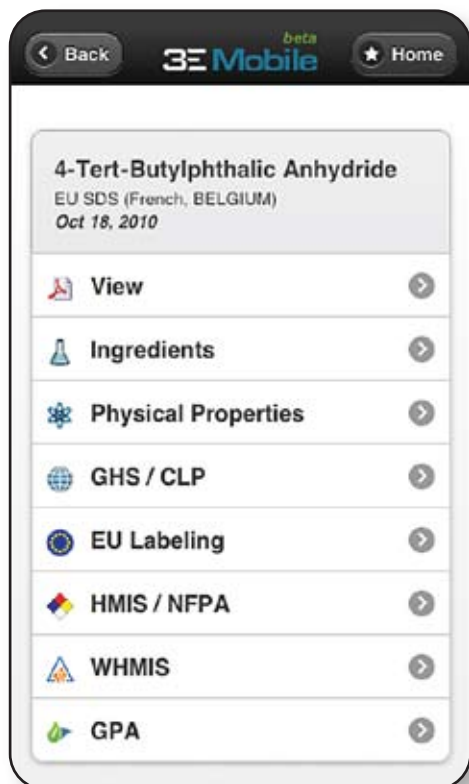

Companies with employees that travel or work remotely or in rugged environments will benefit

from improved access to MSDSs and related information via their smartphone. Access to this type of information is invaluable in the event of a spill or emergency, which often occurs in locations where computers are not easily accessible. With 3E Mobile-MSDS, responders can instantly access product information at the scene of an incident, regardless of its location, and react in a timely manner to mitigate its impact, prevent injuries and reduce damage to the facility.

Search or scan

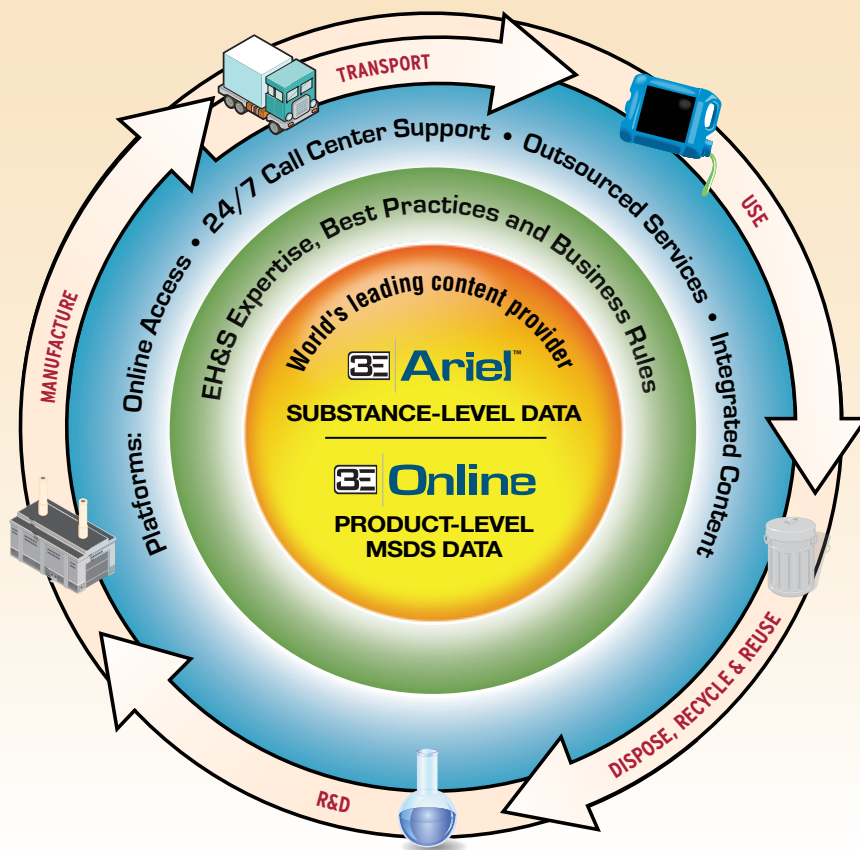

In addition to being able to enter search criteria to find an MSDS, users that have Universal Product Codes (UPCs) associated with their products can also scan barcodes, and automatically retrieve the relevant MSDS and related information on their smartphone, offering the ultimate in ease-of-use and flexibility.

Full Chemical Lifecycle Management

3E Company's comprehensive suite of data products and information services enables improved compliance with global Environmental Health & Safety (EH&S) requirements related to the safe manufacturing, distribution, transportation, usage and disposal of chemicals and hazardous products. Whether you are a manufacturer, distributor, transporter, retailer or corporate user of chemicals or hazardous products, 3E can deliver a program specific to the EH&S compliance information and management needs of your organization that provides benefits to the entire enterprise and throughout the supply chain. 3E Company's full product lifecycle and supply chain approach provides a single, integrated solution for managing EH&S capabilities, resulting in reduced cost, risk and liability while improving business and compliance processes.

EH&S Challenges

With the spotlight shining brightly on EH&S compliance, companies are challenged with finding effective ways to address the complexities and intricacies of EH&S compliance management. Not only do these challenges stem from a constantly-changing regulatory landscape, but also from a scarcity of newcomers to the EH&S field, and pressure on EH&S departments to manage increased responsibility with fewer resources. Addressing these issues requires broad and deep domain expertise—expertise that doesn't always exist within the company. And if it does, this expertise is probably best utilized driving the company's overall compliance strategy, not bogged down with paperwork or the administrative burdens associated with maintaining compliance.

EH&S Solutions

At 3E Company, we understand the business and the burden of EH&S information and compliance management. 3E Company is a comprehensive, one-stop solution for content, tools and services for companies that want to take effective leadership and control of their product stewardship and EH&S compliance activities. 3E's products and services help companies make the transition from simply managing for compliance, to cutting-edge product stewardship practices that deliver tangible and sustainable business results.
